

MTQIP meetings are structured to optimize the open sharing and rich clinical discussion of identified performance data by those working directly within member trauma programs.

- MTQIP meeting attendance is restricted to participating trauma center members only, unless otherwise invited by the MTQIP coordinating center.
- MTQIP meeting attendance is required for:
 - Trauma Medical Director/Surgeon Champion
 - Trauma Program Manager/Coordinator
 - MTQIP Clinical Reviewer (MCR)
- Other clinical trauma disciplines may occasionally attend at the discretion of the Trauma Program Manager/Surgeon.
- Guests are periodically allowed to attend on a case by case basis and must be approved in advance by both the specific trauma program leadership and MTQIP Coordinating Center.
- The guest will be required to sign a confidentiality agreement prior to the meeting.
- Those interested in attending as a guest may contact Judy Mikhail, MTQIP Program Manager at jmikhail@med.umich.edu
