

Implementation

MTQIP follows the below validation scheme for monitoring and improving collaborative data quality. Centers will be selected and notified in January for the preceding year.

Center selection process

1. All centers that have not been validated the previous year are validated.
2. The 8 centers with the highest error rates for the collaborative are validated.
3. The remaining centers are chosen at random until a total of 25 centers for the year.

2022 Data Validation Centers

1. Ascension Borgess Hospital
2. Ascension Genesys Hospital
